

MTS

Maritime Telemedicine Solution

FLAT LINE IS NOT AN OPTION

“The Health

of seafarers is not only a major concern of seafarers themselves but also a primary concern of the shipowner/operator/manager. With approximately 80% of maritime accidents caused by human error, sickness and injury benefits represent a growing proportion of the shipping industry's third party liability insurance claims. ”

 **SetelHellas**
Your Global ICT Partner

MTS

Maritime Telemedicine Solution

The **3** Main Advantages

- Remain safe with 24/7 professional medical consultation
- Avoid wrong diagnosis through onboard tests by approved & certified medical equipment
- Ensure effectiveness of treatment consultation from internationally accredited health organizations

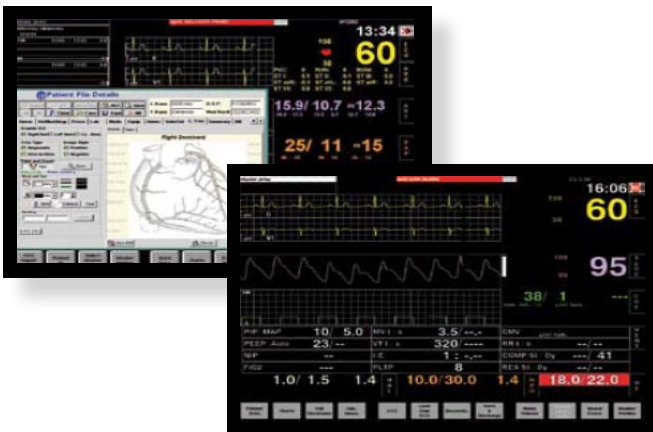

The Solution

HOW IT WORKS

MTS is a holistic approach that provides adequate medical services allowing the crew to have access on a 24/7 basis to a medical center which has specialized doctors or to the shipping company's doctor. SetelHellas utilizing the "best-of-breed" available tools is presently implementing "instant medical testing" and "electronic diagnosis" solutions that could allow many services currently conducted at a clinic or hospital to be delivered on board the vessel.

MEDICAL CONSULTATION
